

SUMMER PROFESSIONAL LEARNING

BUILD THE FUTURE WITH JRA!

GREEN INFRASTRUCTURE

ELEMENTARY: JUNE 10-12

MIDDLE SCHOOL: JUNE 24-26

HIGH SCHOOL: JULY 15-17

Explore building a green future in a 3-day, grant-supported workshop! Learn the basics of Project Based Learning (PBL) strategies and go on exciting field trips to green building projects in the Richmond region. Build your own green model building that demonstrates key science content areas as you learn. Empower students to make a change in their world!

Participants will receive lunch, lesson plans, and a **ChompSaw cardboard cutting workstation** valued at **\$250** to help create student engineering projects!
