

ENVIRONMENTAL EDUCATION

MICRO CREDENTIAL

- 9 CREDITS
- 3 COURSES

For **STUDENTS, TEACHERS & PROFESSIONALS** interested in learning more about our environment, connecting to nature and understanding how these impact our lives.

Environmental education can be found in many industries that drive our economy and impact our daily lives, such as formal education, informal education, recreation, manufacturing, health care, government agencies and others. As we face global issues related to climate and the environment there is a growing need for preparation and training in environmental education.

For information contact Dr. Kim Yates: yatesk2@nku.edu
